M. Rose,
CLAY CITY, KY.

Twelve Months Dead Line.

By order of the Postoffice Department all weekly papers can no longer be mailed as second-class matter to subscribers twelve months or more in arrears. In complying with this new ruling we have been compelled to cut off 300 names, and all subscribers from this time on will have to be promptly dropped when their subscription becomes twelve months past due. Please keep yourself from under the dead line by paying one year in advance. Publisher.

Election Frauds Shown Up.

Harlan county is about as near being unanimously Republican as counties usually get, and at the late election two Republicans ran for the Legislature. The regular candidate was declared elected and in a contest which ensued, some of the evidence shows the manner in which the immense Republican majorities in the Eleventh District are piled up:

One of the depositions, which was absolutely uncontroverted, declared that fifty men had been brought across the Virginia line in the recent election to vote for Cornett, and the State Republican ticket. Another deposition recited that one man who had been in the habit for many years of always being the first man to vote when the polls opened, arrived a little late at the last election and was told by one of his party friends that three men had voted before him. He glanced at his ballot and found that it was numbered 106, showing that that many votes had already been counted in the precinct although but three men had voted. At another place, as a deposition declared, unchallenged, there were thirty members of the Hensley family who voted in that precinct. All of them cast their ballots, but the stub books showed that thirty-three more Hensleys had been "dug up" from some source and voted for Cornett and the Republican ticket.—Winchester Democrat.

One Publisher Likes New Law.

For years we have been publishing this paper and have found our delinquent list a very pleasant people. Some of them allow their paper to run five or six years but most of them have always shown up sometime with the pay, and it is with sorrow that the governments ruling compelled us to cut off 300 of them. The Maysville Ledger takes a different view of the situation and delivers itself very consolingly as follows:

"It now looks to us like the delinquent subscriber is to be unnumbered with the host of other unpleasant and unprofitable memories of the newspaper office. The Postoffice Department declares that when a subscriber is in arrears longer than one year he shall be cut off the list and his paper stopped, unless the publisher wishes to pay 4 cents for every pound of such mail sent out in violation of the regulation. This will put a quietus on the careless and persistent "old delinquent," and should prove of vast benefit to all country newspaper men. The delinquent subscriber has been responsible for more misery, worry and general trouble to country editors than all

the other adverse things combined, and now that the matter is to end the result should meet with the hearty approval of every one who has suffered for years from a cause only too well known, but one for which he has grown gray and wrinkled and poverty stricken in endeavoring to make the best of his helpless condition. Ta, ta, old delinquent! We've loved you too well, but not wisely."

New Tobacco Factory at Mt. Sterling.

Local capital is behind a project to open a chewing and smoking tobacco manufactory at Mt. Sterling.

J. Wells Wilkerson will be made general manager, and a salesman will be put on the road. Mr. Wilkerson claims to have discovered a new method of curing which will be of benefit to the tobacco. An independent tobacco factory has also been established at Covington. Both factories will use only Equity tobacco.

Bradley Case Reversed.

The Court of Appeals has reversed the Powell Circuit Court in the case of Louie Bradley against the Supreme Lodge of K. P.'s. Bradley sued to recover \$1,000 life policy left to him by his brother Kinney Bradley who died in this city two years ago of tuberculosis. Judgment was given in the lower court but lost in the higher.

Tuberculosis Exhibition.

The American Tuberculosis Exhibition, which has just closed in

Louisville, will be opened in Frankfort on Monday, February 3rd where it is hoped to impress upon the legislators and others gathered there from all over the State the needs and possibilities of prosecuting the Anti-Tuberculosis movement in every county of the State.

It is being sent to Frankfort by the Kentucky Anti-Tuberculosis Association and the Lexington Anti-Tuberculosis Association which will share the expenses incurred during its week stay in the Capitol. There have already been presented before this session of the legislature a number of bills providing for steps to be taken against tuberculosis, and this is, no doubt, a very opportune time for inaugurating an educational campaign in the presence of the legislators. It is a thing much needed in this State for very few realize that only two States—California and Tennessee—surpass Kentucky in the number of deaths from this disease. One out of every seven die from it in Kentucky.

Leaving Frankfort the Exhibition will go to Lexington after which the Kentucky Anti-Tuberculosis Association expects to have so thoroughly organized the Anti-Tuberculosis fight all over the State that the very high death rate which now obtains in Kentucky from this disease will be greatly reduced.

Strayed or Stolen.

About three weeks ago I had missing from my place 5 Shotes, 2 old Ewes and 3 yearling Ewes. Old ewe had bell on when she left. One of the young sheep had a brown spot on its side. Liberal reward for return or information leading to their recovery.

J. R. HURST,

Vaughn's Mill, Ky.
